Covid-19 Compelling Question Catharsis

It is hard to know exactly what to do in a pandemic. Most of us are consuming the news, responding to the litany of emails from our employers, and stocking our pantries. Some of us are teaching and meeting online, homeschooling our children, and working to keep our elderly relatives and friends safe. Everyone we know is scrambling to adjust and is tired from the effort—especially teachers.

But social studies teachers are a hardy breed. C3 Teachers are even hardier. In the midst of what was becoming a quarantine, they did what social studies teachers do best by asking compelling questions that have begun to emerge during this crisis.

We organized those questions into disciplines that make up Dimension 2 of the C3 Framework. While no question is purely civic, economic, geographic, or historical, we sorted them knowing that it was one way to view these questions and that there was likely a driving discipline that would anchor a student’s exploration.

While we are all living in uncertain times, inquiry remains a fundamental part of being human. We thank the graduate students at the University of Kentucky for helping us remember the importance of questions and the ways in which questions move us forward.

Keep inquiring, social studies teachers!

—Kathy Swan, John Lee, and S.G. Grant

Who gets care when hospitals fill up?
Does disaster change governmental responsibility?
Could the spread of misinformation cause more harm than a virus?
Should the government have the ability to withhold information from the public?
Could Covid-19 rearrange political parties?
Why is it wrong to call Covid-19 the “Chinese Virus?”
Should there be censorship during a national crisis?
Where do individual liberties end and social responsibilities begin?
Can a pandemic be blamed on anyone?
How can the Covid-19 situation end?
Will this pandemic ever completely be behind us?
What should happen to make us feel like we won?
Will Covid-19 make the United States more or less federalist?
How will students be assessed without standardized tests?
What is the right thing to do in moments of uncertainty?
Does individual safety guarantee societal safety?
What does a healthy government look like during times of sickness?
Should elections ever be cancelled?
Has the political narrative in the United States shifted?
Will Covid-19 change what kind of citizens we are?
Should we even bring back standardized tests?
Can the courts work under Covid-19?

Economics

Are we economically doomed?
Will the economy recover?
Will Covid-19 supercharge inequality?
Where are the masks?
Should people be able to profit during a pandemic?
Is our fight against Covid-19 worse than the disease?
Is now a good or bad time to buy a home?
Will Covid-19 encourage the US to transition to universal healthcare?
Should we have a universal basic income?
Who is impacted most by a disaster?
Should grocery store workers be considered emergency workers?
Do we need a bigger social safety net?
Can a pandemic highlight preexisting inequities?
Will an economic stimulus package save the economy from the effects of Covid-19?
Who wins/loses during a pandemic?
Who benefits from epidemics?
Is the pandemic stimulus package the same as the 2009 stimulus?
Can modern monetary theory bring the US out of the economic crisis caused by Covid-19?
What should define "essential work" in a market economy?

**Note:** This text represents a list of questions related to various topics including social issues, geography, and history. Each topic is further divided into specific questions to explore the implications and consequences of the COVID-19 pandemic.
| Social and Behavioral Sciences | - Can disease make us better?  
- Will we ever shake hands again?  
- Will there be a Covid-19 baby boom?  
- What if we can’t stop social distancing?  
- Can we be too informed about the virus?  
- When should you turn off the news?  
- How will we socialize while social distancing?  
- How will we celebrate milestones at a distance?  
- How should we avoid going Covid-crazy?  
- Is complacency more dangerous than panic?  
- How does quarantine affect individuals with mental health disorders?  
- What responsibility do we have to others?  
- How can I make others safe?  
- Does crisis bring out the best in us?  
- Does staying away bring us closer?  
- Do people change who they listen to during a crisis?  
- Who is essential for our society?  
- Why won’t we just stay home? |
